LARYNGOSCOPES

Welch/Allyn°

Advancing Frontline Care

Welch Allyn Laryngoscopes

Features

- The one-piece construction of Welch Allyn blades eliminates the potentially weaker soldered or brazed joint.
- Lightweight. Reduced handle and blade weight for improved balance and maneuverability facilitates even the most difficult intubations.
- Convertible. Blades easily convert from lamp to fiber optic illumination. Makes upgrading economical.
- Repairable. Replace deteriorating light pathways for a fraction of the cost of a replacement blade.
- Improved design. Reduced proximal blade height assists in intubating patients with limited oral access.
- One-piece construction. Single-piece stainless steel blade ensures blade integrity (no soldered joints) and minimizes corrosion.
- Halogen HPX™ illumination. Our fiber optic blades feature Halogen HPX™ lamps for true tissue color, providing more than 30% brighter, whiter light than traditional halogen lamps.

MACINTOSH LARYNGOSCOPES

MacIntosh Laryngoscopes

A design that incorporates a gentle, continuous curve from the tip to the proximal end. The curve is compressed into the vallecula and the blade lifted, indirectly raising the epiglottis. Welch Allyn modified the MacIntosh blades by reducing proximal blade height. This results in a lower profile that assists in intubating patients with limited oral access.

Blade Size	Overall Length	Length Inside Base to Tip
1	89 mm	63 mm
2	108 mm	82 mm
3	126 mm	101 mm
4	160 mm	135 mm
	1 2 3	1 89 mm 2 108 mm 3 126 mm

MacIntosh Standard

Part No.	Blade Size	Overall Length	Length Inside Base to Tip
#69041	1	89 mm	63 mm
#69042	2	108 mm	82 mm
#69043	3	126 mm	101 mm
#69044	4	160 mm	135 mm

E-MacIntosh Laryngoscopes

E-MacIntosh, or "English"-MacIntosh, blades are the most popular style of laryngoscope blade outside of the United States. The design, although based heavily upon the original MacIntosh blade, differs in several aspects. First, the curve of the E-Macs is more continuous from the proximal to distal end. This improves lifting mechanics. Second, overall length is increased to help assist intubation in patients with an anterior larynx. Finally, the profile or height of the instrument had been reduced for easier intubation in patients with limited oral access.

E-MacIntosh Halogen Fiber Optic

Part No.	Blade Size	Overall Length	Length Inside Base to Tip
#69211	1	95 mm	70 mm
#69212	2	116 mm	90 mm
#69213	3	135 mm	110 mm
#69214	4	156 mm	130 mm

E-MacIntosh Standard

Part No.	Blade Size	Overall Length	Length Inside Base to Tip
#69241	1	95 mm	70 mm
#69242	2	116 mm	90 mm
#69243	3	135 mm	110 mm
#69244	4	156 mm	130 mm

MILLER LARYNGOSCOPES

Miller Laryngoscopes

Welch Allyn modified the original Miller blade, developed with Welch Allyn in 1941, to improve its functionality and field of view. First, the blade or tongue of the blade was flattened so that the patient's tongue would be swept aside, rather than compressed. The flat base helps to hold the tongue out of the field of view. Overall field of view was increased by modifying the cross-sectional area of the blade without altering width or height.

Miller Halogen Fiber Optic

Part No.	Blade Size	Inside Vertical Measure	Length Inside Base to Tip
#68065	00	8 mm	36 mm
#68060	0	8 mm	53 mm

#68044	4	13 mm	182 mm

Fiber Optic Handles

Lightweight Fiber Optic Halogen HPX™ Handles

Welch Allyn lightweight handles are up to 40% lighter than our previous design. This, coupled with a 50% reduction in blade weight, adds up to a responsive and maneuverable system. Fiber optic handles are available in both "C" and "AA" sizes.

Rechargeable Fiber Optic Halogen HPX™ Handles

Eliminate the problem of drained handles with our rechargeable fiber optic handles. These units can remain constantly in the charging stand to ensure full power and maximum illumination. The handle utilizes a 2.5 V or 3.5 V recyclable* nickel-cadmium battery that is guaranteed for two years.

^{*}As a sign of our commitment to the environment, Welch Allyn encourages the return of all spent nickel-cadmium batteries for recycling.

Standard Handles

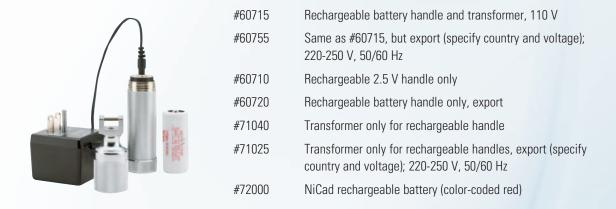

Standard Battery Handles

Welch Allyn standard laryngoscope handles come in a variety of sizes to meet any application need. Crafted from durable chrome-plated brass (like all Welch Allyn handles), our handles are built to last. Choose from "D," "C," or "AA" battery cell sizes.

Standard Rechargeable Battery Handles

Virtually eliminate the need for replacement batteries with a Welch Allyn rechargeable handle. The recyclable* nickel-cadmium battery is guaranteed for two years and ensures operation even after long periods of non-use.

^{*}As a sign of our commitment to the environment, Welch Allyn encourages the return of all spent nickel-cadmium batteries for recycling.

Fiber Optic Sets

Each set includes both of our "AA" and "C" cell battery lightweight handles and lightweight blades for maximum maneuverability.

Fiber Optic Sets with Case

#69696	MacIntosh fiber optic set includes blade sizes #1, 2, 3 and 4, #60813 "C" cell battery handle, #60814 "AA" cell battery handle and case #05691
#68696	Miller fiber optic set includes blade sizes #0, 1, 2, 3 and 4, #60813 "C" cell battery handle, #60814 "AA" cell battery handle and case #05681
#69697	E-MacIntosh fiber optic set includes blade sizes #1, 2, 3 and 4, #60813 "C" cell battery handle, #60814 "AA" cell battery handle and case #05791

#65122 MacIntosh #3 and 4, Miller #0 and 2, with Stubby Battery Handles and Case

Popular Mixed-Blade Style Fiber Optic Sets with Case

MacIntosh and Miller Universal Sets

#65121	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60813 "C" cell and #60814 "AA" cell battery handles and case #05700
#65122	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60813 "C" cell and #60815 stubby battery handles and case #05700
#65123	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60814 "AA" cell and #60815 stubby battery handles and case #05700

E-MacIntosh and Miller Universal Sets

#65124	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60813
	"C" cell and #60814 "AA" cell battery handles and case #05701
#65125	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60813 "C" cell and #60815 stubby battery handles and case #05701
#65126	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60814 "AA" cell and #60815 stubby battery handles and case #05701

Portable Fiber Optic Sets with Case

We've combined three of the most commonly used laryngoscope blades with our soft-shell case. Sets are available with "AA" or "C" cell handles and in either fiber optic or standard versions.

WelchAllyn

#65103 MacIntosh #3 and 4 and Medium Handle

Fiber Optic Portable Sets with Case—MacIntosh and Miller

#65101	Portable set includes laryngoscope blades (MacIntosh #3, Miller #0 and Miller #2), #60813 "C" cell handle and case #05620
#65102	Portable set includes laryngoscope blades (MacIntosh #3, Miller #0 and Miller #2), #60814 "AA" cell handle and case #05620
#65103	Portable set includes laryngoscope blades (MacIntosh #3 and MacIntosh #4), #60813 "C" cell handle and case #05620
#65104	Portable set includes laryngoscope blades (MacIntosh #3 and MacIntosh #4), #60814 "AA" cell handle and case #05620
#05620	Portable case only, soft vinyl, zippered

LARYNGOSCOPE SETS

Standard Sets

Welch Allyn standard lamp laryngoscopes are available in complete sets. Choose from either a four-blade MacIntosh, E-MacIntosh or five-blade Miller set. Each contains both "AA" and "C" cell battery handles.

#69096

Standard Sets with Case

#69096	MacIntosh standard set includes blade sizes #1, 2, 3 and 4, #60300 "C" cell battery handle, #60400 "AA" cell battery handle and case #05691
#68096	Miller standard set includes blade sizes #1, 2, 3 and 4, #60300 "C" cell battery handle, #60400 "AA" cell battery handle and case #05681
#69097	E-MacIntosh standard set includes blade sizes #1, 2, 3 and 4, #60300 "C" cell battery handle, #60400 "AA" cell battery handle and case #05791

Popular Mixed-Blade Style Standard Sets with Case

MacIntosh and Miller Universal Sets

#65221	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60300 "C" cell and #60400 "AA" cell battery handles and case #05700
#65222	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60300 "C" cell and #60305 stubby battery handles and case #05700
#65223	Universal set (MacIntosh #3 and 4, Miller #0 and 2) with #60400 "AA" cell and #60305 stubby battery handles and case #05700

E-MacIntosh and Miller Universal Sets

#65224	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60300 "C" cell and #60400 "AA" cell battery handles and case #05701
#65225	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60300 "C" cell and #60305 stubby battery handles and case #05701 $$
#65226	Universal set (E-MacIntosh #3 and 4, Miller #0 and 2) with #60400 "AA" cell and #60305 stubby battery handles and case #05701

Standard Portable Sets with Case

We've combined three of the most commonly used laryngoscope blades with our soft-shell case. Sets are available with "AA" or "C" cell handles and in either fiber optic or standard versions.

Retaining screw for all fiber optic light pipe assemblies—#690015-501

Retaining screw for all standard light pipe assemblies—#690015-501

Welch Allyn fiber optic blades and handles conform to ASTM F1195 and ISO 7376-3 standards and are color-coded green to signify compatibility.

Welch Allyn standard blades and handles conform to the ASTM F965 and ISO 7376-1, -2. Standard blades are color-coded black to differentiate them from fiber optic blades.
